

# Internal Medicine Learning Collaborative: Current Perspectives on Delirium in Older Adults

**Thursday, October 27, 2022 • 7:00 – 8:00 PM**

**Speaker:**  
Loni Belyea, M.D., M.B.A.  
Geriatric, Internal and  
Obesity Medicine  
FirstHealth of the  
Carolinas  
Assistant Professor,  
Campbell School of  
Osteopathic Medicine

**Training:** M.D., Tufts University School of  
Medicine

**Fellowship:** Yale University, Geriatrics

**Internship & Residency:** University of Hawaii

## Objectives

At the conclusion of this presentation, the participant should be able to:

1. Describe the prevalence and importance of delirium in the elderly
2. Identify criteria and differentials for diagnosis
3. Distinguish delirium from underlying dementia
4. Review non-pharmacologic and pharmacologic treatments of delirium

## Program Description

The purpose of the Internal Medicine Learning Collaborative is to provide a forum for clinical updates in internal medicine and to advance patient-centered care in the context of cultural diversity, global health, and diverse healthcare systems through collaborative learning and exchange among CFVHS physicians and physicians practicing in the Cooperative Republic of Guyana.
