

MSc. Development Studies (Online)

About the Degree

The MSc. in Development Studies is designed to produce graduates with specialized leadership skills for development and an interdisciplinary grasp of the Social Sciences.

It will:

- Expose students to recent social, economic and political developments, especially in small developing countries
- Facilitate an understanding of the principles and practices of policy formulation, implementation and evaluation
- Equip students to use quantitative and qualitative techniques in decision-making; and
- Equip students with the skills to undertake research in policy analysis.

In addition to a firm grounding in contemporary social, political and economic affairs, the degree features a novel leadership seminar, a practical in-course approach to research methodology and a technical writing seminar.

Programme Features

Students are required to enrol in the General Degree or one of three Concentrations at the start of the programme:

- 1. Master of Science in Development Studies (Social Development Policy)**
- 2. Master of Science in Development Studies (Economic Development Policy)**
- 3. Master of Science in Development Studies (Governance and Public Policy)**

Generally, courses are offered in asynchronous mode – to allow students to study at their own pace during each Semester/Term. However, in some courses, facilitators may offer synchronous sessions to facilitate special guest lectures, panel discussions, interactive discussions and group presentations by students.
